

## **Craven Cottage gets a new stand.**

**Koblenz, November 2020**

### *Kalzip delivers aluminium standing seam roofing system for the Riverside Development at Craven Cottage for Fulham F.C.*

Craven Cottage is the historic home ground of English Premier League club Fulham F.C. and is located on the banks of the River Thames in West London. Since hosting its' first football match in 1896, this stadium has seen many changes and this latest development will see the capacity increased to 30,000 seats.

This extensive new phase in Craven Cottage's development has been planned since 2012 with demolition work starting in summer 2019. The building of the new state-of-the-art Riverside Stand is currently well underway with completion due in 2021.

The new stand was designed by international stadium specialists Populous. During the extensive planning phase, Populous decided to use a high-quality aluminium standing seam roofing system from Kalzip, to adorn the new stand.

Kalzip has a long history of providing excellence within the stadium and arena sector, with an involvement in many renowned stadium projects across the globe over our 53 year history.

A total of 2,180 sqm of Kalzip profiled sheets, 65/400 in stucco embossed, will be installed by Kaicer Building Envelope Solutions. Kalzip is proud to be involved in this project and be a part of the historic Craven Cottage's future.

## PRESS RELEASE

### **About Kalzip**

Kalzip is an international manufacturer of aluminium roof and facade systems. Producing in Germany, the company has a distribution network in Great Britain, France, Spain, Dubai, and India. Kalzip produces on modern, partly mobile roll-forming lines and can therefore offer high-quality, customer-specific roof systems for stadiums, sports halls, traffic structures, industrial buildings, commercial buildings, and residential areas. Kalzip provides a comprehensive range of products for both new buildings and renovation projects.

Kalzip has been a company of the Donges Group, the leading supplier of bridges, steel constructions, roof and façade systems in Europe, since 2018. The Group, employing 1300 people worldwide, has the companies Donges SteelTec GmbH, FDT Flachdach Technologie GmbH, Kalzip GmbH, NORDEC OY, and Norsilk SAS under its roof.
